JOSIAH TURNER, Jr., EDITOR.

From the Note-Book of an Eminent Physician, in Hearth and Home.

HOW CONSUMPTION MAY BE CURED.

September 5th.—The first announcement to a patient that he or she has consumption is often like a death-knell. The vacant stare, the pale cheek, and the convulsive sigh, indicate a shock of the most profound character. Indeed, I have known persons to swoon away, and require the most active exertions to restore them. And yet it is not true that consumption is necessarily a fatal disease. In point of fact, it is not as fatal as many diseases which prevail in every community, and yet excite no remark. Consumption results from a perverted nutrition. Instead of that perfect assimilation essential to sound health there is an imperfect elaboration of the nutritive fluids, which leads, by inflammatory action or other processes, to the deposition in the lungs and other tissues of crude material known as tubercle. Persons predisposed to consumption, or living under circumstances which lower the vital energies and prevent the nutritive process, are those in whom this affection most frequently appears. It follows that there is no specific for consumption. It is not curable by medicines; on the contrary, its fatal issue is more often hastened by medication.

For the encouragement of patients, and to illustrate the course of life most likely to restore vigorous health, (a condition incompatible with consumption,) I usually relate cases that have come under my observation. The following is one example among many:

"A young medical friend, having an hereditary tendency to consumption, began to realize its first well marked symptoms—It progressed rapidly toward a fatal termination. The cough, emaciation, and hectic, betrayed his condition to the most superficial observer. Alarmed at his condition, but dreading to yield to the conviction of his friends that he was a victim of this disease, he refused to be examined, or even to talk on the subject. At length he became so weak and prostrated that he consented to have his lungs examined, and on the announcement of the physician that they contained large cavities he fainted, and was rallied with great difficulty.—Aroused to a pitch of desperation, he determined that he would not lie down and die, but would betake himself to out-door life. He accordingly spent his entire days in horse back exercise, sawing wood, boat-rowing, etc. At night he slept on a hard bed in an out house, through which the winds had full play. His diet was plain and but little cooked; his clothing coarse and scant. That physician is to-day practicing his profession in a New England town. He is upward of forty-five years of age, and weighs about two hundred pounds. A finer specimen of health is not seen in New England."

Recovery from the latest stage of consumption is therefore possible. The following outline of the course of life to pursue is given:

Live in the open air and sunshine; avoid dampness and darkness in your dwelling; if possible, choose a dry mountain region; develop by vigorous exercise every muscle in the body to its fullest capacity; select nourishing and easily digested food, and be sure that it is not overcooked; dress in coarse woollen clothing; bathe for cleanliness and comfort; never forcibly distend the lungs, but increase their capacity by exercise, and, finally, take no medicine except as aids or additions to the course of life recommended.

THE WORLD IN A HUGE PHOTOGRAPH.

There are other photographs besides those which are taken in the studio of the maker of portraits. Every object on the earth's surface is continually emitting rays, which affect all the objects around it, and produce on them impressions which may be invisible to our eyes, but which are nevertheless well marked and definite, and might be rendered visible, if properly developed, as the photographers would call it. So that, in fact, the surface of the earth is nothing but one huge photograph on which is delineated all objects and all passing events. Sometimes these photographs become so far developed as to be visible to the human eye, thus, a man in San Joaquin, California, has in his possession a surveyor's instrument, on the front lens of which there is plainly seen a beautiful landscape with all the varied hues of Nature. Some fifteen years ago, according to the owner's account, the instrument had been in use, and was left standing for a time, on the plain, in a scorching mid-day's sun, fronting a woodland. When again brought into use, a correct picture of the fronting woodland, with all the various colors of the landscape, was photographed on the lens, and has remained unchangeable to the present time. The truth of this is easily tested in the following manner: Take a sheet of clean white paper, on it lay a leaf, and place the whole for a few hours in bright sunlight. Remove the leaf and lay away the sheet of paper in a drawer, or other dark place. It, after the lapse of a few months, the paper be again placed in the sunlight, an image of the leaf will appear on the surface.

GROWTH OF POPULATION.

At the taking of the last census, in 1860, the population of the United States was 31,443,321. And it was then estimated by the Census Bureau that in 1870 the country would contain 42,328,432, in 1880 a population of 57,450,241, in 1890 a population of 77,266,989, and in 1900 the vast aggregate of 100,355,802, when the United States would embrace but twenty-eight inhabitants to the square mile, whereas the State of New York has already ninety-four, and Massachusetts one hundred and seventy-three. Were the whole country peopled as Massachusetts it would have within its borders no less than 619,000,000 souls, constituting a nation incomparably transcending the greatest empire of ancient or modern times. Elkanah Watson, Benjamin Franklin's friend, made out a table of estimated population for every decade up to the year 1900, and his estimates have thus far held good. He predicted that in 1900 our population would be a round hundred millions. Though our long and disastrous civil war was not taken into his calculations, it now looks as if the enormous increase of immigration will more than make up for any losses incurred from this and other sources.—*Louisville Courier-Journal.*

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry, and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wareb-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

So husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, OCTOBER 1, 1869.

FIRE ON ASSASSINATION.

"We tell those who are assailed to fight, to resist force with force and murder with death."—*Standard.*

The *Standard* again says:

"In another column is an extract from the SENTINEL, from which it seems that the editor of the SENTINEL is charged by Judge Settle with making a speech that "tended to the assassination" of Judge Tourgee and Judge Settle.

So serious a charge must have some foundation, for Judge Settle is not a man apt to be alarmed at trifles, or to raise a false alarm. He is a man whose bravery has been proved. He is a lawyer and as such is well qualified to judge the meaning of words.—Therefore, it he avers that Mr. Turner made a speech which had a tendency to advise his assassination, it will take good evidence to make us believe that the speech had not the tendency Judge Settle avers he believes it had.

We have several times received information that the speeches Mr. Turner so constantly delivers himself of were of an inflamatory character, and have been requested to refer to them. This we have declined to do, knowing that every one knew Mr. T's style of oratory, and that his remarks amounted to nothing. But it seems that, in this case at least, we were wrong. Therefore we request that some of our friends in Rockingham will send us minutes of the speech referred to that we may, if proper, publish it, that the people may judge whether it is of a nature to benefit the community or whether it is such as will injure the interests of the people by exciting that political bitterness which every good man is now endeavoring to quell."

We have been reported to Mr. Pike as making "inflamatory speeches," "and it seems," says Pike, "from the SENTINEL, that the editor is charged by Judge Settle, with making a speech that tended to the assassination of Judge Tourgee and Judge Settle." No such thing can be seen from the SENTINEL. We stated that Judge Settle did not hear our speech, but the Judge did say that he understood that "Turner's speech tended to the assassination of himself and Tourgee." "He (Settle) is a lawyer and as such is well qualified to judge the meaning of words." "It will take good evidence to make us believe that the speech had not the tendency Judge Settle avers he believes it had."

How contemptible in Pike! Judge Settle did not aver anything in the matter.—Somebody informed him, we suspect it was his friend Groom who wanted all the white houses south of Dan river burned. We should guess it was Groom, because he was the first man to enter Judge Tourgee's room when he arrived on Tuesday night at 10 o'clock. While Pike is inquiring about our speech, let him inquire who informed Judge Settle that the speech tended to his assassination. We offered the negroes one hundred dollars in gold if Judge Tourgee would give the name of the respectable quaker who told him he saw fifteen negroes drawn up out of one mill pond, who had been murdered by the rebels. One negro doubted Tourgee's having said so. We told him, if Tourgee would deny having said it, we would give him a hundred dollars. If this be to assassinate Judge Tourgee, then we are guilty.

We spoke in terms of condemnation of the conduct of Judge Settle, in connection with his $10,000 bridge over Dan River, with no road, or even hog-path leading to the bridge. We condemned Judge Settle's course in silencing Messrs. Scales and Dillard, and refusing to allow them to appear before him in behalf of a boy who was charged with murder. If this be to assassinate Judge Settle, we are guilty. We assassinated Groom and chicken-Stephens in the same way, and with the same knife.

We called specially to see Thos. A. Ratcliff, a merchant of Wentworth, whose chickens the Senator from Caswell stole. Ratcliff informed us that Stephens lived next door to him. Stephens would open his crib door, and when Ratcliff's chickens went in, Stephens would close the door and wring off their heads.

This mode of impressing chickens became a daily business. The cook, a hired woman, informed on Stephens, lest she might be accused of stealing. When two of Ratcliff's chickens were on his kitchen floor, with their heads off, patiently waiting for the water to heat, Ratcliff took out a State's warrant against Stephens. Stephens denied any knowledge of the chickens.—Ratcliff proposed to go to his kitchen, but Stephens declined. He was bound over to Court, indicted, confessed his guilt by paying the cost and leaving the county of Rockingham. He is now Senator from Caswell. Judge Tourgee is the guest of Stephens when he holds Caswell Court.—Stephens has proven himself to be of good character, at least to the satisfaction of Tourgee, and through Tourgee, he, chicken Stephens, has been admitted to the Bar of North Carolina. Judge Settle and Pike would call this an attempt to assassinate Stephens.

Shades of Gaston and Badger, how the Bench and the Bar have degenerated!

A few genteel members of the Bar shake hands and associate with Tourgee and refuse to shake or associate with Chicken Stephens. Now, this is morally wrong on the part of the Bar. Stephens is your brother, made so by the Judge. It is disrespectful to the Judge to throw contumely and contempt upon his friend, Stephens. Refusing to shake hands with Stephens is, according to a recent decision of the Supreme Court, a contempt of Court. (See 2 Phillips Reports, page 397, in the matter of B. F. Moore and others.) We say it is moral cowardice in the Bar to shake hands with Judge Tourgee and then refuse to shake hands with his friend, and their brother, Chicken Stephens.

DON'T REGISTER YOUR DEEDS.

We say, don't register your deeds, unless you have plenty of money. It is well,—it is best, for every person to have their deeds registered. We regret that we did not take notice of this matter at the proper time, and before most persons had registered. We know many who have not registered, because they had not the money to pay for registration.

The Legislature passed two Acts, one requiring all deeds to be registered by the first of October, and the following Act, which we take from the *Standard*:

AN ACT to extend the time for registering certain Deeds.

SECTION 1. The General Assembly of North Carolina do enact, That all grants of land in this State, all deeds of mesne conveyances, deeds of roll, deeds of gifts, powers of attorney, and other conveyance, which are allowed or required by law to be proved and registered, shall, within two years after the passage of this Act, be admitted to proof and registration under the same rules, regulations and restrictions as heretofore or hereafter may be provided by law; and when so proved and registered shall be as good and valid as if they had been proved and registered within the time heretofore allowed; Provided, That nothing herein contained shall be construed to extend to mortgages and conveyances in trust or to marriage settlements.

Ratified the 12th of April, A. D., 1869.

We would publish the other act on the subject if we had it; but the Governor's State printer is in New York, bulling up State Bonds, instead of printing the late acts of the Assembly. Why there should be two acts of Assembly on the same day, upon the same subject, we are not able to understand. We hear it suggested that the purpose was to put money into the pockets of scallawag Registers, and other county officials. When the State printer, and Ring Master returns and gets out the acts of Assembly, we shall be able to judge if there be any just cause for such suspicion and suggestion. Come home, Milton, and attend to the printing.

THE PENITENTIARY.

We don't get anything official from the Penitentiary Commissioners. Why is this? We wonder they don't report. We are quite pleased to learn that they are proceeding faithfully in the discharge of their duty, but we learn nothing of the details of what they are doing. We are glad to chronicle this good report. It is about the first time we have heard any thing favorable of those in authority. Some of the Commissioners we know, some we do not, we know the Chairman, Gen'l Dockery, and the only really bad thing we ever knew of the General, is his connection with the present *Radical* faction in this State. We wonder that he can stand the villainies of his fellow radicals which transpire daily before his eyes. There was a time when the old man would have cried out, if the heavens had fallen. It is passing strange that such men as Gen'l Dockery will sustain the "Carpet-baggers" and the "Ring." We trust he does not in his heart, but he ought to speak out and reprove the rascals in the face of man and the world. But we suppose the General is under the lash of the Governor and the leagues! But let us hear from the commissioners. Are they about to fit up a place that will hold the villains who may, by the merest accident be convicted of crime? Let us hear.

THE STANDARD ON KU KLUX.

The *Standard* of Thursday morning has an article criticizing the Chapel Hill Resolutions, published in the SENTINEL of Wednesday, which Resolutions were also sent to the *Standard* to be published but the editor says he would see "them and their resolutions in the lowest pit of hell, and then not do it."

The only things about the article of the *Standard*, at all remarkable, outside of the above emphatic but unclassic expression, is its great malignity of tone, and the general pervading idea that "Leaguers" are saints and the "Ku Klux" devils—that that paper will support the Leagues, despite all evidence of their vicious tendency and known crimes, and will war on Ku Klux to the death. We do not defend either of these secret organizations, and think that all secret associations of the kind are dangerous to the safety of society. But we are confident that the organization of the Leagues, as a secret political association in the interest of a political party, has given rise to the opposite organization, and we are confident of the further fact, that the disorganization of the Leagues would be the readiest way in the world to bring about the disorganization the Ku Klux. The *Standard* and its party may think differently and still support the League organization; we think it wrong and that it will tend only to evil.

WAKE COUNTY COMMISSIONERS—AGAIN.

We call attention to the communication of "A Tax Payer," in another column. We assure our correspondent of the verity of the figures we gave in an article on Wednesday last. We got the facts from the report made by the Commissioners themselves, and published in the Standard newspaper. Every word was true, and we are sure we are justified in what we said about the matter.

We tell our correspondent, however, that Judge Watts won't tell the Grand Jury anything about the matter. The Grand Jury may, possibly, present the matter, in view of the wide spread indignation among the people on this subject. We trust the Solicitor may take the matter in hand. It is certainly his duty to do so, we think. But we will see, by-and by, and we shall advert to the matter again.

THE "RING" AND THE STATE BONDS.

The "Ring," including the Governor and Treasurer, are now in New York, manipulating the State Bonds. They are there, and, *while they are there*, and we doubt not, under their manipulation, the bonds of the State went down, Wednesday, as the telegraph informs us, to *forty cents* in greenbacks on the dollar. Now, we understand this game, and we tell the people how it is played: The "Ring" men combine to put the bonds down *as low as possible*; then they put the State bonds in the market, while the bonds are *low down*, and the "Ring" buy them. As soon as they buy, *then* the price of the bonds is put *as high* as they can get it by *combination*, promise of paying the interest, &c., and *then they sell* out the bonds which they bought at a mere song. For example, they buy the bonds at 40 cents in the dollar, to-day; to-morrow or next day, they manage to *run the bonds up*, and sell out at 50 or 52 cents in the dollar. This margin in the sales of hubdreds of thousands of dollars, makes *fortunes* for the "Ring." The Governor and Treasurer are in New York! The telegraph informs us of the sudden fluctuations in these bonds while they are there; do the people see?

We ask, who will believe the hypocritical and false declarations of the *Standard*, that the *Sentinel* and the "croakers" put down the price of State bonds, in the face of such villainies as are practiced in New York by the "Ring." And, let it be remembered, too, that the "Ring" master, Gen. Littlefield, is in New York, helping to do the "Ring" work, and the *Standard* is under the control of Littlefield and Governor Holden. Away with such hypocrisy! The people scoff at such stuff; they see the point.

We predict that the bonds will go up in a few days, so that there will be a "margin." We told the people a few days ago, that the bonds would go *down* and then *up*!

A correspondent in the Newbern *Journal of Commerce*, from Jones County, is speaking of the various cases taken up last week in the Superior Court of that county, gives the following:

"Joel R. Hines, whom you, no doubt, recollect, was kidnapped in Lenoir county last Spring, and brought to the jail of Jones County, by order of some detective or O. R. Colgrove, and over which there was so much excitement at the time, and which has caused the county to be cursed with negro military lawlessness, was here in attendance, punctual to his obligation and his bond, and nothing appearing against him he was discharged. Thus ended this great tempest in a teapot, which threatened to place the country under martial law and in a state of insurrection and which Capt. Baxter's militia was sent to suppress. *O, tempora! O, mores!*

On Saturday, the 18th, John L. Green, negro militiaman, was brought before a magistrate's court, charged with the attempted murder of David J. Green—strong circumstantial evidence of his guilt, as principal or accessory, was elicited. A large number of negroes were in attendance, many of their armed militia, and by their behavior, evincing, more or less, a disposition to create a disturbance.

The defendant was required to give bond in $100 for appearance at Court on Monday, which bond was made up, composed of men of no means, and not justified, and utterly worthless. The small amount of bond and the irresponsibility of the parties, was admitted by the Justice, in order to prevent a riot or bloodshed as the anticipated consequences of committing to jail or demanding a bond the prisoner could not give. During this trial a witness testified that he had been offered a reward to kill David J. Green. When questioned as to who made that offer he stated it was Sheriff Colgrove. Many think he made the charge on the dead to screen the living.

At court a true bill was found against J. L. Green, and the case coming up for hearing, the defendant removed his case to Craven county."

For the Sentinel.

MR. TURNER: I have read with amazement your article in your paper of Wednesday, about the conduct of our County Commissioners. Is it possible that your information is correct? Can there be no mistake? If the facts as you state them are true, the conduct of the Commissioners is not only reprehensible, but it seems to me it is criminal in the highest degree; it is intolerable. The people cannot and ought not to stand it. Is there no remedy for such conduct? Can't they be forced by law to refund the money? Can't they be indicted for such gross outrage upon the people? Surely Judge Watts will call the matter to the attention of the Grand Jury, it will be his duty to do so. I have heard some hard things about the Judge, but I feel sure he will not wink at, much less endorse such conduct as that of which you give an account. I am a tax-payer and have been for many years, but I do assure you, that I don't intend to pay taxes for such purposes as that, if I can help it; I get my money by honest industry and I will not support men in any such a way.—But may you not be mistaken? If you are not, you may put this in your paper, and I think you ought to urge the Judge and the Grand Jury to take hold of the matter for our relief and by way of example to other County Commissioners who might be tempted to do similar crimes.

A TAX PAYER.

Wake County, Sept. 29, 1869.

The Washington correspondent of the New York Tribune gives a refreshing piece of news, that Mr. Jay Gould requested by telegraph, on Friday, that the Secretary of the Treasury should lend him $800,000 for the purposes of the Erie railroad on bonds as security. He didn't get it, though he alleged that he wanted it to pay laborers on heavy improvements.

The Indian papers state that the Maharajah of Travancore is about to perform the ceremony of Thooloparum. The process consists of his Highness being placed in one scale with an equal weight of gold in the other. The gold thus obtained is afterwards distributed among the Brahmins according to each one's privilege, and it is only after the ceremony that his Highness is supposed to be sanctified.

Lockport, N. Y., has a novel system of water works, especially as relates to the extinction of fire. They comprise a series of pipes of large diameter laid through all the principal streets and avenues with various outlets at convenient points. A constant pressure is kept on by means of a force pump, and as many as thirteen different streams have been thrown at the same time, all averaging a heighth of 130 feet, rendering engines practically useless.

PLEASE READ.

Quackenbos' Arithmetics Compared with Davies Arithmetics.

Quackenbos' Primary vs. Davies.

1. *Quackenbos* devotes 13 pages to Notation and Numeration, giving clear and simple definitions. *Davies* does not allude to those terms, and has no exercises in Counting worthy of the subject.

2. Quackenbos, in his definitions, is clear and easy of comprehension.

QUACKENBOS.	DAVIES.
Addition is the process of uniting two or more numbers in one. When you unite two or more numbers in one, what do you find? *Ans.* I find the sum.	Addition is the operation of finding the sum of two or more numbers.

Here it will be noticed that Davies uses the word "sum," but leaves the pupil in the dark as to what "sum" is, so far as any definition is concerned. See Quack, p. 16, and Davies, p. 17. See, also, Webster's definition of "*addition.*"

Will the Teacher please examine Quackenbos' definitions and compare them carefully with Davies'? See Quack. pp. 42, 43, 59, 76 and 77, and then look at the incomplete and unsatisfactory definitions on pages 34, 48 and 66, in Davies'. We implore a comparison.

3. *Quackenbos* has elaborate slate exercises all though his Primary, thus teaching the child to use his pencil, make figures and prepare himself for penmanship, see Quack, pp. 17, 21, 23, 29, 32, 36, 37, 41, 52, 71, 72, and many others. Please look carefully through. Will the Teacher please try to find a slate exercise in *Davies'?*

4. *Quackenbos* defines and illustrates "carrying" in addition (p. 35) and substraction (p. 56,) and division, (p. 88.) We cannot find such illustrations in *Davies'*.

5. *Quackenbos* introduces the *signs* of Addition, Substraction, Multiplication, and Division, and familiarizes the child with them by numerous examples. *Davies* entirely omits them. See Quack, pp. 90, 91, 92 and 95.

6. *Quackenbos* gives the important tables (see pp. 98 to 108) and fastens them in the pupils' minds by numerous examples under each. *Davies* gives the tables, one after the other, without exercises, (see pp. 91 to 95.)

☞ Will the teacher please compare these two books, page by page? We crave a most critical comparison.

Quackenbos' Mental vs. Davies' Intellectual.

1. Please compare Quackenbos' Definitions, pp. 6, 13, 20 and 28, with Davies', 13, 17, 18. We could not find any definitions for Multiplication or Division in Davies.—Perhaps he forgot them.

2. Please compare, *critically*, Quackenbos' treatment of Fractions, pp. 38 to 72, with Davies' mode pp. 65 to 116. No comment from us is needed.

3. *Quackenbos* treats the following subjects in separate and distinct sections, giving full definitions and illustrations by examples:

(1.) The Metric System,	p. 89
(2.) Partnership,	109
(3.) Bankruptcy,	123
(4.) Insurance,	124
(5.) Taxes,	
(6.) Duties, Quackenbos',	125
(7.) Discount, "	140
(8.) Stocks and U. S. Securities,	143
(9.) Gold Currency,	146

We have looked carefully, as instructed, (very politely) from pp. 137 to 143 in Davies' Intellectual, but cannot find a single section devoted to these subjects, nor a definition. Will the teacher please see if we are correct?

4. *Quackenbos* devotes 13 pages to Interest; Davies only 6 pages.

Quackenbos' Practical vs. Davies'.

1. *Quackenbos'* rules are brief and definite, Davies' are generally wordy and often obscure. See Quack. pp. 25, 35, 43, 55, and Davies pp. 25, 35, 46, 56 and 59.

2. See Quackenbos' illustration of subtraction, p. 35 and Davies p. 35.

3. See "Circulating Decimals" in Quack. p. 114, 116. Does Davies treat them, and where?

4. See "*Aliquot Parts*," in Quack. p. 122 Where is the treatment in *Davies?*

5. See "*Tables*" in Quack. pp. 133 to 159. See the same in Davies pp. 148 to 168. Quackenbos is much fuller, and imparts valuable information under each table. See, particularly, "circular measures," Quack p. 157 and Davies p. 168.—Then compare all.

6. See "*Interest*" in Quack, p 205, and in Davies p. 235. Next see Rule on p. 208 in Quack. and short methods on p. 210. We cannot find them in Davies—see also Rule for 7 per cts of p. 211 in Quack. and p. 238 in Davies. It will be seen that Davies is meagre and does not give the latest, and briefest methods. Davies gives nearly 7 pages to Simple Interest, while Quackenbos gives 14 pages.

7. See *Compound Interest* in Quack. p. 219, and 245 in Davies. See Quackenbos' illustration of Compounding annually and semi annually. We do not see it in Davies. Quackenbos' treats Federal and sterling currency; Davies only Federal.

8. See Quackenbos' definitions of "*Notes*" &c. p. 223 224 and Davies p. 250 and 248. Is there really any merit in Davies on this point?

9. See Quackenbos on "*Partial Payments*," p. 225 and Davies 241. Davies gives one rule; Quackenbos gives three; the "United States," the "Mercantile and "Connecticut," and in addition thereto "Notes with Interest Annually." Davies neglected to put these under this head. Quackenbos devotes 2 pages to the subject, Davies only two and a quarter.

10. See "*Stocks*" in Quack. p. 240 and 247 and Davies 232. Read carefully the definitions in both. Can any business man prefer the inaccurate, meagre definitions of Davies? Do Teachers prefer Davies for his *Omissions?* See Quack. "Account of Sales," pp. 245 and 246, and see if anything like it can be found in Davies pp. 260 and 261.—The publishers of Davies say it is there.—We cannot find it. Will the reader please look? Will the examiner please notice that Quackenbos gives 8 pages to "Stocks" and Davies gives only 2½ pages.

11. See "*Taxes*," pp. 260—263 in Quack. and p. 283 264 in Davies. carefully compare definitions. Note Davies *Omissions.*—See "National Tax" in Quack. p. 263.—Please look for it in Davies.

12. Please see "*Bankruptcy*" in Quack. p. 255. We cannot find it in Davies.

13. See "*Insurance*" in Quack. pp. 258, 257, and Davies 231. Note Davies inaccurate definitions and *omissions.* Please see "Accident Insurance" and "Life Insurance, pp. 239 in Quackenbos. We cannot find them in Davies. The publishers of Davies say that he gives *nine* examples under Insurance, whilst Quackenbos disposes of it in seven. Really there is a slight mistake, for Quackenbos gives just *twenty* examples. Gentlemen please refer again to Quackenbos.

14. Please see "*Annuities*" in Quack. pp 321 to 325. Not a word on the subject in Davies that we can find.

15. Now please turn to "*Exchange*," pages to 287 to 294 in Quackenbos and pp 253 to 256 in Davies. Read and compare carefully. We cannot find "arbitration of Exchange" in Davies, see Quack p. 292.

But enough, we will pursue the damaging comparison no further, unless called upon by the publishers of Davies, books.—We have laid our books side by side with Davies. We have sought to be accurate and fair. If ought else appears on examination we will withdraw it.

Such are the books adopted and rejected. *Inferior* books are adopted at higher prices than are asked for the *superior* books enumerated above.

We leave the matter with the Teachers, Parents, Guardians and Tax payers of North Carolina.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of those Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,

F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

B. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

FRENCH MERINOES,

In which I recognize no competition, as they will be sold just as cheap as they were when Cotton was 10 cents per lb. and money equivalent to gold.

ALWAYS COME TO CREECH'S to buy MERINO DRESSES, for my money is as good as anybody's; I bought them as cheap as anybody, and I intend to sell as cheap as anybody. That's the way to talk it.

GOODS FOR MEN AND BOYS' WEAR,

Such as Kentucky Jeans, Tweeds, Satinets and Cassimeres. No better assortment or greater variety in the city. In fact, I have enough to keep the boys, the youths, the young men and the old gentlemen, all warm. Step in at Creech's and look at them before you buy.

HATS! HATS! HATS!

For Gent's, Boys and Children. Pull off your old summer hat; it's too late to wear it now; style is changed. In fact, a new hat looks best, anyhow. Call at Creech's corner and examine, before you buy a new Hat.

SHOES! SHOES!

One among the largest and best assortments in the City. Come pull off your old shoes, throw away those that are worn out, and put on a new pair. Keep your feet dry, and preserve your health. Always come to Creech's before you buy.

Ladies and Misses' Hats! Hats!

No use to talk. The style has changed. Spring and Summer styles are out of vogue; so go to CREECH'S. HE ALWAYS KEEPS THE **NEW STYLES.**

LADIES' BONNETS.

Some small enough; some large enough; some trimmed; some untrimmed. It won't do you any harm to call at Creech's before you buy.

CLOAKS AND SHAWLS.—A Fine Assortment.

Now don't you think you had just as well step over to CREECH'S, and look. Probably you will save time and money. In fact, that is just the very place to get the worth of your money; and permit me to tell the people, that when they visit the City, to COME TO **CREECH'S**, for thousands who have come, acknowledge the truthfulness of my assertions.

I have more to say to you, but will tell you the balance at my place of business.

JUSTICE ADAMS'S COURT.—The inevitable E. S. Wallace was up again, on a peace warrant, sued out by James Jones, colored. This is the third or fourth time these parties have appeared before the same Court, on charges growing out of the same transactions. This time Wallace was bound in a bond of $500 for his appearance at Court.

E. S. Wallace *vs.* Sarah Price, colored, peace warrant, the plaintiff charging defendant with threats to burn his house, &c. Defendant bound over in bond of $200.

RETURNED.—The many and warm friends of A. Miller, Esq., our former excellent and courteous Post Master, will be glad to learn that he has returned to the city, after a sojourn of some months among the mountains of Virginia, and is looking hale and hearty.

FULL UP.—Pike returns thanks to the Cottage Hotel for dinner and champagne; his acknowledgement was written with every "button unbuttoned," "the inevitable consequence of the amount of supplies taken in." So he says.

This other expression to be found in the editorial column of the *Standard*, "We tell those gentlemen that we would see them and their resolutions, in the lowest pit of hell first, and then not do it," must have been written under the "inevitable consequences of the amount" of champagne, taken in Cottage Hotel, don't send any more champagne with your dinner. See how it spoilt the *Standard*.

SAVINGS BANKS.—Rev. G. W. Brodie has laid on our table a pamphlet of nearly a hundred pages on the origin, progress and utility of "savings banks," which contains a good deal of useful information on the subject of which it treats, and we think the colored people especially would be much benefited by reading this little book and heeding the advice which it contains. It can be had for 30 cents per copy at the Freedmen's Savings Bank.

COME HOME GOVERNOR.—Col. Forebee's barn has been burnt, David Green of Jones has been assassinated by your brother Leaguers. Come and call out the "malish." You never called out the "malish" when three barns were burnt in Orange by the League. The result was one of your suspected Leaguers was killed, by the Ku Klux. "Cussing beloved" why don't you come.

PROMISED AMUSEMENT.—J. H. Mack, Agent for Skiff and Gaylord's Minstrels, was in the city yesterday, and made arrangement for performances at Tucker Hall on the evenings of Monday and Tuesday, Oct. 11th and 12th. Of this Company the New Orleans Picayune says:

"Skiff and Gaylord's minstrels commenced their short stay at the St. Charles theatre last evening to a crowded and refined audience, which was kept in the best of humor by the inimitable and beautiful performances of this company. Each member is a star performer in his line—each having been selected for his peculiar part. Low Gaylord, the great ethiopian comedian, is broad wit itself, and exceedingly funny in his several acts. Harry Talbott is a successful dispenser of the only reliable remedy for the blues. The vocalism of Signor Gustavo Bidaux, Sam Gardner and the great quartette, is far superior to that usually found in cork opera. The song and dance by Master Georgie Hunter, was done in purely negro style.—The grand triple clog dance by the originals—Stiles, Phelps and Armstrong—was the best we have ever seen. Joe Mairs was admirable in his dance and female impersonation, while the instrumental parts led by Mr. Richard Buckholtz, is first-class.—Altogether this company is composed of the best artists now before the public.—The flute solo by Johnny Armstrong, was well appreciated, and showed this gentleman to be a perfect master of the instrument. Prof. Schaffner's Panthiopticonica is magnificent, and must be seen to be appreciated.

THE BEST YET.—Look out, at Kirkham's stand, near the *old* Market place, to-morrow morning and afternoon, for the finest Beef and Mutton he has had this season. It will be found there, and no mistake.

GOES TO HILLSBORO'.—We are requested by Dr. M. Burkhardt to say that he will be in Hillsboro' next week, and will remain through Tuesday, Wednesday and Thursday, where he can be consulted by those wishing to obtain assistance to their eyes.

Recorder please notice.

Henry Edmundson, a noted horse thief, was convicted at Columbus county Superior Court, last week, of horse stealing, and sentenced to the Penitentiary for ten years.

PENITENTIARY COMMISSIONERS.—The Penitentiary Board met in the Senate Chamber on Wednesday. Most of the time, up to last night, has been occupied in arranging finances, auditing accounts, &c. On Wednesday afternoon they visited the Penitentiary Grounds, where they found the stockade nearly completed, tool house and some other temporary buildings erected, and everything progressing favorably, under the superintendence of Mr. Hicks, Assistant Architect. The works will be in a condition to receive convict laborers in the course of a month or two.

The Board has decided to employ a guard of twenty four men, under the charge or command of a Sergeant, which, it is thought will be sufficient to guard the prisoners employed on the work. We hope the right sort of men will be selected as guard, which no doubt will be done, as a good deal depends upon the sort of guard employed.

The proposals for furnishing 4,000,000 bricks, were opened on yesterday, and the contract awarded to Messrs. King and Whitelaw, of Raleigh, one third soft, at $7.50. The following were the bids:

J. B. Cook, all hard at	$10,00,	⅓ soft	$9 50
King & Whitelaw, "	8 50,	"	7 50
Gallagher & Cunninggim, "	10.50,	"	9 50
D. G. Fowle, "	9 00,	"	8.50
Geo. T. Cook, "	9 00,	"	8.50

The Commissioners continue their session to day, when arrangements will be made for procuring a supply of food, clothing &c., for the convicts who may be put to work on the penitentiary grounds and building.

See the Card of Mrs. F. A. Johnston, Dress maker, in another column. Mrs. J. assures us that her facilities for meeting the demands in her line are good, and that she will use the utmost exertion to give satisfaction to her customers.

COTTON.—This product continues to flow pretty freely into our market, where buyers are always ready for it, at the highest prices that the Liverpool, New York and Baltimore quotations will justify. The prices yesterday were a little depressed, owing to retrograde movement of prices in New York and Baltimore.

OFFICE BOARD OF EDUCATION,
Richmond, Va., Sept. 23, 1869.

Geo. C. Conner, Esq.,
Agent D. Appleton & Co.,

DEAR SIR:—The following books offered by you have, this day, been adopted as text books for use in the City Public Schools:

CORNELL'S GEOGRAPHIES,
QUACKENBOS' ARITHMETICS.

* * * * * * *

Very respectfully,
ANDREW WASHBURN,
Sec'y and Supt. of Schools.

The Board had before them the publications, in whole or in part, of Messrs. Wilson, Hinkle & Co., Thos. Scribner & Co., E. H. Butler & Co., The University Publishing Company," A. S. Barnes & Co., and D. Appleton & Co. The "offers" of the Agents of these houses were allowed to remain sealed until after the adoption. The books were then adopted on their MERITS. The result of an adoption on *merit* was McGuffey's Holmes' Speller, Holmes' Grammar, Cornell's Geographies, Quackenbos' Arithmetics, Goodrich's Histories and Beer's Penmanship. Each house having an Agent present received courtesies, as will be seen by looking over the list. I publish these facts as matters of information.

GEO. C. CONNER.

Richmond, Va., Sept. 24, 1869.

THE FUTURE KING OF SPAIN.

Prince Thomas Albert Victor, Duke of Genoa—Sketch of the Young Candidate.

(Madrid Correspondence Paris Constitutional.)

The nearer the period of reopening the Constituent Cortes approaches, October 1st being thought the probable time, the more the different parties discuss the monarchical question. At present, one thing which is incontestible is the indefatigable activity of the Duke de Montpensier's partisans on behalf of their candidate, or at least in favour of a combination which would afford him more or less satisfaction. Amongst the various candidatures, that which appears to attract the greatest attention is that of Prince Thomas Albert Victor, Duke of Genoa, and son of the former Duke, and nephew of Victor Emmanuel. This young Prince, who is fourteen years and a half of age, is being educated in England, and, according to report, is happily endowed both in a physical and moral sense. In order to attach the Montpensier class to this project, and which rumor affirms to be supported by M. Olozaga, the idea is to unite the Duke of Genoa to the third daughter of the Duke de Montpensier, Princess Maria, sixteen years and a half old. This persistence of introducing the French family in these different combinations gives you an estimate of the activity displayed by its friends and the indefatigable ardor of their ambition. The supporters of the Duke de Montpensier, in order to invest his pretensions with greater popularity, as a belief exists that they are not favorably regarded by the Imperial government of France, do not recoil from the grossest falsehoods. Thus, some days since, telegraphic despatches were sent from Madrid into the provinces, announcing the intention of the Emperor Napoleon to interfere by armed force in Spain in favor of restoring the Bourbon dynasty. However absurd this report, it assumed such consistency that the government of Seville believed itself called on to give it an official denial.

FOR THE BENEFIT OF FREEDMEN.—A gentleman residing in Poughkeepsie proposes that an association be formed in the North for the purpose of furnishing land to freedmen. The members of the association are to contribute by loans to the funds of the association, and these funds are to be invested in lands in the South, which shall in turn be sold to worthy industrious poor persons at cost, exclusive of interest. He also proposes that the plots shall contain twenty acres each, and shall be sold subject to the condition that no distillery brewery or other manufactory of spirituous, distilled or fermented liquors shall be erected or permitted on any portion of the lands, nor shall any of the above mentioned liquors be stored or kept for sale on any of them. The need of some association like this is obvious, says the New York Tribune, as nearly all the lands now in the Southern markets are offered in large tracts.

Instead of $2,000,000, according to a Boston paper, the loss by the September gale on the New England coast will amount to over $4,000,000. The loss of life is not yet fairly known—not less than thirty, and possibly double that number, as the crews of one or two capsized vessels are feared to be lost.

FOREIGN.

PARIS, Sept. 30—Specie decreased nearly 19,000,000 francs.

The Hippodrome of Paris was burned last night, loss heavy.

MARKETS.

NEW YORK, Sept. 30.—Cotton fully a ¼ a cent lower sales 1,500 bales at 27¼; Flour dull and declining; Wheat closed dull; Corn ditto; Pork firm at 31; Lard quiet at 18¾ to 19. Whisky firmer at 1,18; Groceries dull; Naval stores quiet. Governments closed firm; 6s 19¾. South rose strong and advancing; Tenns 61, New 52; Ga's 80, N. C's 49¾, New 45.

The advents of yesterday produced a comparative calmness on Wall street to-day. But little business was done in the Gold Room or Stock Exchange and outside the street seemed deserted. Many injunctions have been issued, restraining the action of Brokers and moneyed corporations, and have had the effect to bring business almost to a stand still. Gold was sold to-day at the Stock Exchange but under protest. A small knot of Gold Brokers, also transacted business in the Gold Room, but there was no excitement and sales were small.

Money easy early in the day but later the market tightened and at the close was stringent at 7; Gold Exchange heavy at 8, Gold ranged at 31½ down to 29½ to 29¾, closing at the latter. The sub-Treasurer sold $1,000,000 at 30 to 31; Stocks closed rather lower, with a prospect of improving.

BALTIMORE, Sept. 30.—Cotton dull at 27¼; Flour lower, Howard street superfine 6 to 6.25; Corn dull, white 1,25 to 1.28; Wheat quiet; Oats firm at 60 to 63; Pork quiet; Bacon firm; Whisky 1,20; Va's. old 45; 67's 47 bid.

WILMINGTON, Sept. 30.—Spirits Turpentine quiet, sales at 39½; Rosin at 1 75 to 4.50; Cotton quiet, low middling 24½.

The heavy rains have enabled the resumption of navigation.

LONDON, Sept. 30.—Bullion decreased £350,000. Consols 93. Bonds 87½.

LIVERPOOL, Sept. 30.—Cotton dull. Uplands 12¼; Orleans 12¾. Sales 5,000 bales; Export and speculation 2,000.

THE UTLEY
COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are accepted that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Be Beautiful. If you desire beauty you should use Hagan's Magnolia Balm.

It gives a soft, satin-like texture to the Complexion, removes Roughness, Redness, Blotches, Sunburn, Tan, &c., and adds a tinge of Pearly Bloom to the plainest features. It brings the Bloom of Youth to the fading cheek and changes the rustic Country Girl into a Fashionable City Belle.

In the use of the Magnolia Balm lies the true secret of Beauty. No lady need complain of her Complexion who will invest 75 cents in this delightful article.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44

BROOKLYN,	21,09
UNIVERSAL,	27,34
JOHN HANCOCK,	18,27
THE NATIONAL,	65,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 599 policies, received an income of seventy-eight thousand dollars, and possessed assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 15,327 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

The Daily Sentinel.

For the Sentinel.

At a meeting of the Directors of the North Carolina Real and Personal Estate Agency, held on the 31st day of August last, I was elected President. On the next day a drawing was advertised to take place on the 19th day of November, 1869, and my name published as President. This advertisement was made without consultation with me, and before the affairs of the Company had been looked into. Upon examining into them, I discovered that the assets were not sufficient to justify the announcement, and I immediately called a meeting of the Stockholders for the 16th day of September. At the meeting of the Stockholders on that day, I stated the condition of the affairs of the Company, as well as I could ascertain them from the books as I found them. The following resolutions were therefore adopted:

Resolved, That the President appoint a Committee of three to examine the books and papers of the Company, and ascertain, if possible, what disposition has been made of its funds.

The Committee under the resolution reported that they had not sufficient time for a thorough examination, and offered the following resolution:

Resolved, That the President be directed to employ two competent men to examine thoroughly into the affairs of the Company; to ascertain and report what disposition has been made of its funds; to put its present books into the best possible condition, and to open a new set of books upon such a system as shall secure the affairs of the Company from confusion hereafter.

This was amended so as to allow the President to appoint a third person, to be employed for not more than five days; and thus amended, passed.

The Chairman of the Committee also offered the following:

Resolved, That the thanks of the Stockholders are due, and are hereby tendered, to R. G. Lewis, Esq., Treasurer of the Company, for the faithful manner in which he has discharged his duties.

This was adopted, and it was then further

Resolved, That the Board of Directors be requested to make an assessment of three per cent. upon the stock of the Company, to be paid as follows: one per cent. within 15 days, and two per cent. on the 15th of October next.

Resolved, further, That the Stockholders who have already made payments of cash upon their stock, be allowed credit to the amount of such payments, upon this assessment, and if this assessment be not sufficient to meet the liabilities of the Company, the Board of Directors shall increase the assessment until it be sufficient.

Resolved, That the President is hereby requested to enquire into the matter of money paid to J. G. Hester, the late President, at Wilmington, for tickets and stock sold there, and to require the said J. G. Hester to pay said money to the Treasurer, or to account for it.

After the adjournment of the Stockholders, a meeting of the Board of Directors was called for Saturday the 18th inst. At this meeting, the following Directors, with the President attended: Robert G. Lewis Esq., and Messrs. J. G. Hester, J. C. Hester and Wesley Whitaker. After the proceedings of the Stockholders were read, R. G. Lewis Esq., offered the following resolution:

Resolved, That an assessment of three per cent, on the stock sold, be made—that one per cent of the same be paid on the 1st of October, one per cent on the 15th of October, and one per cent on the 30th of October.

Resolved, Further, that the Stockholders who have already made payments of cash upon their stock, be allowed credit to amount of such payments, upon this assessment. Mr. J. G. Hester moved to amend by striking out all after the words "30th of October," and inserting the following:

Resolved, Further that the provisions of this resolution shall not apply to the stock sold by the late President in Wilmington, upon which 10 per cent was paid." This was accepted by Mr. Lewis, and the resolution, after discussion, passed.

The public can see from this action of the Stockholders, as well as of the Directors, that steps are being taken to raise money sufficient to place the Company upon a sound footing. I assure the public that every proper means in my power, as an individual, and as an officer of the Company, will be resorted to, to put right the affairs of the Company, and save those who have taken tickets from loss. No scheme will be advertised until this is accomplished, and then parties holding tickets can have the option to take money or exchange them for others. I feel a deep personal interest in the getting of the affairs of the Company straight, in addition to the interest I feel as an officer. My name was connected with it as one of the supervisors after the first drawing. While so acting I had no interest in the Company, and my only duty was to see that the drawings were fairly conducted, and I can assure the public that they were.

Very recently, before my election as President, I purchased some stock, but never knew anything of the financial condition of the Company until after my election.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction,
RALEIGH, N. C., Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of Mr. Alfred Williams, for the following books, which were adopted Aug 9th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
BEER'S SYSTEM OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October prox. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

PROF. JEROME ALLEN'S COMPLETE SYSTEM OF MAP DRAWING will also be furnished to the Public Schools with Monteith & McNally's Series, without extra charge.

The books will be supplied at exceedingly low rates to the Public Schools in the state.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

Pupils attending the Public Schools will, in accordance with the state contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by
ALFRED WILLIAMS,
Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with
C. W. LAMBETH,
Agent for the Publishers
and Sup't of Introduction.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. ALBERT SMEDES, D. D., Rector of St. Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALBERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular.

J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CROSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present season McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition.

Prof. WM A. GRAHAM, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by those wood cuts, and the concise and full descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance. G. D. BERNHEIM.

From Prof. Jos. H. FOY, President Stantonsburg Seminole High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——, which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the chef d'oeuvre of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller, The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1868.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1868.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. Daily *Herald*, 1868.

The National Series has attained probably a higher reputation than any other complete series of School Books now in existence.

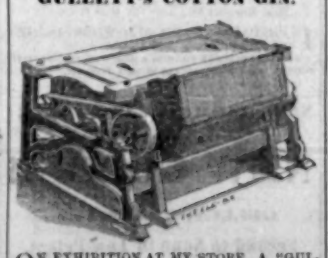
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.
